Summary

Motivated software developer with a crafted background in full-stack development, and a focus on back-end solutions. Dedicated to collaborative teamwork, clear communication, and committed to rapid learning and delivering excellence. Skilled in utilizing modern technologies and Agile methodologies to create scalable, efficient, and practical software solutions.

- Proficiency with Git, Kotlin, and Java for development in large-scale enterprise applications.
- Adept in applying Agile methodologies to drive the successful development of projects.
- Experience in working with Spring based frameworks, gRPC, CI/CD pipelines.
- Quick learner, effective communicator, and excellent time management skills.

Experience

Associate Software Development Engineer - Apprenticeship

Expedia Group | Seattle, WA (Hybrid)
January 2023 – Present

- Contributing to the design and maintenance of critical backend services, focusing on metrics collection, monitoring, and vulnerability management.
- Utilize Kotlin, Java, and Spring Boot, emphasizing system improvements and security.
- Adept in Agile project management, fostering a culture of continuous improvement.

Back-End Developer Intern

Envestnet MoneyGuide | Remote

- Designed and developed APIs for two full-stack financial applications using C# .NET and integrating with MongoDB and PostgreSQL databases.
- Operated within an Agile development environment, contributing to stand-ups, code reviews, and receiving dedicated mentorship.
- Showcased strong problem-solving skills and the ability to learn and adapt rapidly to new technologies and frameworks.
