## Experience:

Guided Pathways IDEAL Fellowship Scholar, Rooted In Love Education - *Summer 2021*
- Participated in the development of racial and social justice advocacy skills alongside student leaders across Washington State's community colleges. Conducted team-based, comprehensive research on specific barriers to students' success. Formed innovative solutions from our research to address a specific issue of inequity and presented our work to our college directors.

Tutor, LRCC at Renton Technical College, *April 2021 – October 2021*
- Engaged with students in the discourse of computer science subjects, often going line by line with them through their code to improve their understanding.

ASG Senate, Renton Technical College, *February 2021 – Present*

- Advocated for the 4,015 members of the student body by bringing together multiple viewpoints and representing them to college administration. Spoke directly on the student experience, how new policies would affect students as well employees, and participated in the allocation of funds to school organizations and clubs.

Audio and Visual Technician, Avidex Event Technologies, *November 2018 - May 2020*
- Acted as Warehouse Manager through understudy, responsible for all incoming and outgoing inventory products and their associated installation projects for both Seattle and Bellevue locations. Maintained inventory records according to business protocol. Learned through informal training and on-the-job training.
- Communicated effectively with project managers, team leads, installation and event assembly team members, independent contractors, and clients about specific requirements for the project/production.
- Ability to discuss technical requirements varying by situation with the many parties involved in clear, simple, and agreeable terms. Worked independently, too, and often managed my own schedule of jobs and coordinated logistics with clients.

## Education:

Bachelor of Applied Science in Application Development, Renton Technical College, *Anticipated June 2024*
- Cumulative GPA: 3.97
- Vice-President's Honors List

Associate of Applied Arts and Sciences in Digital Audio Engineering, Shoreline Community College, *September 2015 - June 2018*
- Cumulative GPA: 3.60
- Graduated with Honors
